Our History

Big Moto Security Training & Cleaning Services (Pty) Ltd opened its doors in February 2020. With a level 1 BBBEE rating, BMS boasts extensive knowledge and experience in the security industry.

We offer reliable and quality security services to our clients in both the commercial and public sectors.

Through continuous transparency and integrity with our staff and clients, we have proudly established ourselves in the industry as a company 'who sincerely care for its employees and clients'.

Company Overview

- *Big Moto Security training and cleaning services is a full-service provider dedicated to deliver exceptional security solutions and comprehensive guarding services in commercial, residential, and industrial clients.*
- *By combining rigorous training, certified personnel, and proven methodologies, we ensure that every project is executed with the highest standard of safety, reliability and professionalism.*
- *Our team of highly trained security officers, supervisors and management's personnel work in close partnership with each client to assess vulnerabilities, develop customized strategies and maintain a secure environment.*
- *We at big Moto security training and cleaning services understands the important of providing reliable and effective security services which is why we are committed to providing our clients with the best possible security service.*
- *Our security officers are selected based on their professional experience, training and abilities to ensure that they have the necessary skill to handle any situation that may arise.*

Our Vision

To be recognized as the industry leader in security training and integrated facility services-trusted by organizations of all sizes for our unwavering commitments to excellence, innovation, and customer satisfaction in which allows us to set the gold standard in security by transforming reactive guarding into predictive safeguarding.

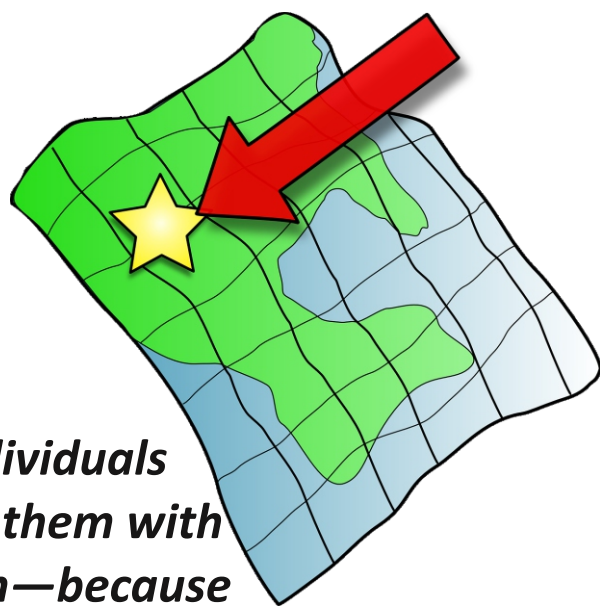

We envision a world where risk is managed so deftly you barely notice our presence, it's also our vision to earn the loyalty and trust of our clients by delivering best security service within the borders of South Africa and making sure that the service provided exceeds our client's expectation.

Our Mission

To protect lives and property through expert security training and first-rate personnel, while maintaining clean, healthy environments that enhance productivity and well-being for our clients therefore we empower businesses and individuals with iron-clad peace of mind by providing them with swift, smart, and scalable security solution—because when you deal big Moto security, you deserve a rapid, reliable response.

Our Services

Static Guarding

At Big moto security training and cleaning services we are serious about the services that we offer, our services are never proposed and or sold to the clients that do not suit their exact requirements, nor will officers, who are not suited to certain requirements, be placed on an assignment.

The strength of each individual is maximised by selectively placing him or her on projects where he or she is best suited.

Our security officers and supervisors are of the highest calibre and the ongoing training program ensures that they can relate directly to the clients needs, enabling them to quickly adapt to situations, analyze the risk and make effective strategic decisions that will avoid risks developing into incident.

Armed Response

Whilst there are many security service providers available for clients to choose from, we feel that the market has left a gap for “safe security”, our team will fill this gap by deploying our highly trained officers and fully equipped.

Each and every one of our vehicles are brabded and fitted with start of of the art

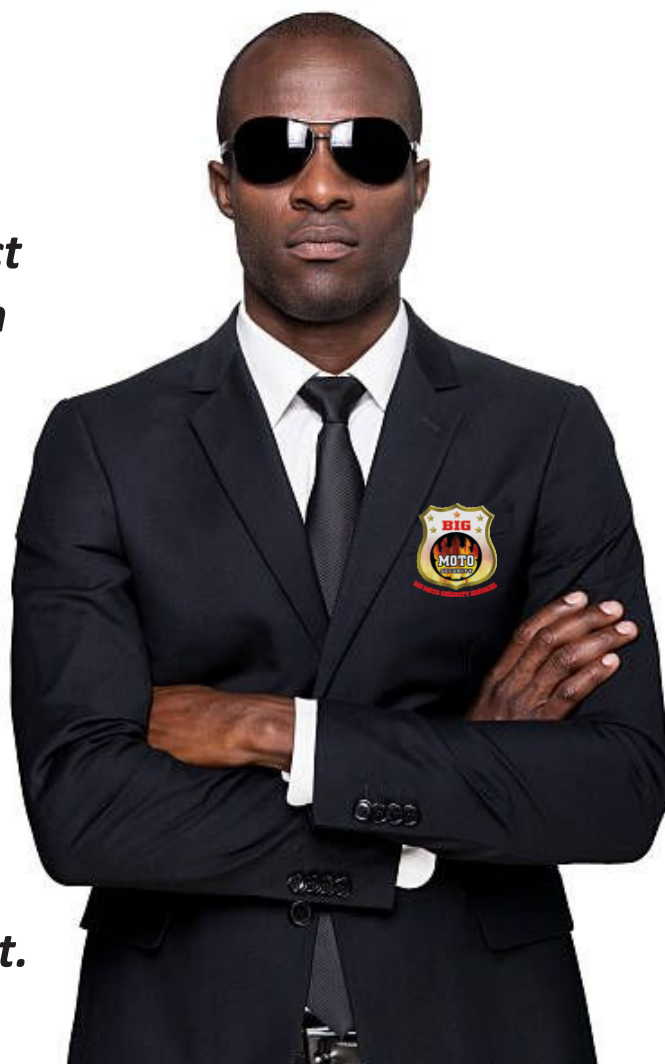

Gps live tracking ,they are in communicating constatntly wih our control room so they can respond swiftly according to our policy and instructions, our morden secure control room is manned around the clock ensuring that alarm and panic activations are dealt with immediatley .

VIP Protection

Top security for important clients and officials , our operatives will act out of professionalism and devotion to their principals and will always go to their assistance when they are depended on despite any danger or difficulty, they will strive to the best of their ability to fully and successfully complete all that is required of them according to instructions , company regulations and their spirit.

Offsite Monitoring

CCTV Offsite Monitoring is a state of the art technology surveillance system serving as an eye on the complete organisation. This can be most gainfully utilized to achieve an optimum security level.

The Big Moto security control room has 24 hour monitoring capacity, all control room operators are trained to identify potential threats and alert the necessary authorities/reaction units in a timeout manner.

Offsite Monitoring

We ensure safety & security through surveillance by:

- ✓ Detecting potential offenders and preventing crimes, theft, sabotage, burglary within the facility.*
- ✓ Providing evidence for any investigation and offender's prosecution.*
- ✓ Preventing and responding effectively to any crises and harassment of any kind.*
- ✓ Enhancing confidence and commitment to the security of premises.*
- ✓ Incident reports are then provided for the client's perusal.*

Technical Services

Providing Residential/business alarm systems form the core of your home/building security. Your alarm system can be set up to accommodate multiple zones to ensure that in the event of a burglary, our control room will immediately be able to identify the exact rooms and outdoor areas of your home that intruders have breached. Several fixed and remote panic buttons can be installed, so that in case of an emergency you can discreetly alert us to respond to the scene straight-away. Every area needs to be professionally assessed to ensure vulnerable points are adequately secured, from the driveway gates, which may need advanced security, to offices, storerooms, production areas, as well as the roof which must not be neglected as it is a fairly common point of entry for burglars. A tailor-made service of the highest standard. It is highly recommended to have several layers of security to effectively protect yourself and your family. These layers will buy time as an early warning system will alert you of any unwanted intruders. This will give you adequate time to secure your family and business whilst armed response is on their way.

Our technical service includes installation for Cctv, Electric fence, gate motors and fire detectors alarm
